Founded in 1963, NWAMOTC is a network of member clubs throughout the Pacific Northwest, including Alaska, Idaho, Montana, Oregon and Washington and the province of British Columbia in Canada. Most member clubs meet monthly to discuss the care, development and education of multiple birth children and other topics of interest. NWAMOTC cooperates with and encourages participation in medical research projects involving multiples relative to the physical, mental and social well-being of multiple-birth children and their families. The organization also is a resource for information and assistance to the public, including people with direct interest or involvement with multiple-birth children.
